

This document is a guide to the cost of all of the drugs you may need during your treatment cycle. The drug cost at the time you book your treatment cycle will apply, so the cost may increase.

The cost of drugs for your treatment cycle will depend upon the number of units (the dose) that your doctor prescribes and the number of days you need to take them. If you are not having a standard treatment cycle then extra costs may be incurred but these will be agreed with you before you start your cycle.

IVF/ICSI	Days	Vials	Boxes	150 units	200 units	225 units	250 units	300 units	450 units
GONAL-F	10			£400	£560	£600	£680	£800	£1200
